## About Intraco Solar Power Ltd.

Intraco Solar Power Ltd. (ISPL), a subsidiary of the publicly listed Paramount Textile Ltd. (PTL), is making significant strides in the renewable energy sector. Situated in Lalmonirhat, Bangladesh, the company's photovoltaic (PV) facility is a key player in the country's transition towards cleaner energy. As part of its expansion plans, Intraco Solar Power is also developing an additional 100 MW solar power plant in the same region. These efforts support the government's ambitious goal of sourcing 40% of Bangladesh's energy from renewable sources by 2040.

In a groundbreaking achievement, Intraco Solar Power has been recognized as the largest I-REC-certified facility in Bangladesh. This milestone underscores the company's commitment to combating the global rise in temperatures driven by fossil fuel consumption. By leveraging renewable energy, Intraco Solar Power is taking a vital step toward a greener future and contributing to the global movement for environmental sustainability.
